Hiring Manager

Neuronest AI Pvt Ltd

Peelamedu, Coimbatore, Tamil Nadu

Dear Hiring Team,

I am writing to express my interest in the Full Stack Java Developer Internship position at Neuronest AI Pvt Ltd. As a B.E. Artificial Intelligence and Data Science student with hands-on experience in full-stack web development, I am excited about the opportunity to contribute to your team and enhance my backend and frontend development skills in a professional environment.

My experience includes building responsive and scalable applications such as PlayBuddy 2.0, a full-stack sports matchmaking platform built using React, Node.js, MongoDB, and JWT authentication. I've also worked on the Smart Outpass System, integrating OpenCV and full-stack technologies to automate hostel tracking solutions. I am familiar with Java and currently building on my experience in Spring Boot, API development, and MySQL.

What attracts me to Neuronest AI is your focus on real-world AI and software solutions, and I am eager to apply my skills while learning from experienced mentors. My strengths lie in problem-solving, collaboration, and quickly adapting to new technologies.

Thank you for considering my application. I would be grateful for the opportunity to discuss how I can contribute to your projects.

Warm regards,

Ragul J
